

# DFC-3000

## Dry Foam Carpet & Upholstery Shampoo

**DFC-3000** not only gets carpet clean, but carpets also require less frequent cleaning, saving you time and money. Carpets look better in between cleanings because of the soil barrier. The soil barrier coats fibers and keeps soil from adhering so regular vacuuming keeps carpets cleaner for longer.

### DIRECTIONS FOR USE

Remove furniture. Vacuum thoroughly. Test for color-fastness. Pre-treat with **Gotcha**.

FOAM TYPE AUTOMATIC & SEMI-AUTOMATICS: Dilute 16 ounces of **DCF-3000** per gallon of warm water.

WET SHAMPOO ROTARY MACHINES: Dilute 10 ounces of **DCF-3000** per gallon of warm water.

Let dry completely. As it dries, **DFC-3000** absorbs the dirt and sets up its protective soil barrier. Vacuum thoroughly to remove the dried foam and with it the loosened dirt. Reset pile by brushing in one direction with stiff synthetic fiber deck brush or pile brush.

### TECHNICAL DATA

Color.....	Clear
Scent.....	Banana
Foaming.....	High
Solubility in Water .....	Complete
Density (lb/gal) .....	8.6
Flash Point .....	None
pH .....	7.0-8.0

FEATURES & BENEFITS

# DFC-3000

Dry Foam Carpet & Upholstery Shampoo

## FEATURES

Concentrated; powerful detergent

Usually dries within 15-20 minutes

Leaves no residue

Pleasant, lingering fragrance

Requires no special equipment

pH neutral

## CUSTOMER BENEFITS

Removes toughest soils quickly

Carpets are back in use quickly

Clean and fresh

Replaces stale carpet odors

A low speed buffing machine and a bonnet

Will not cause pH damage to carpet
