

Mango

Odor Counteractant

Mango is an odor counteractant designed to attack odors at their source. Eliminates urine and smoke odors on contact. Its pleasant **Mango** scent makes it the perfect room freshener. Excellent for use in health care facilities, schools, office buildings, supermarkets, industrial plants, food processing plants, etc.

DIRECTIONS FOR USE

AIR FRESHENER: Dilute 2-3 ounces of **Mango** per quart of water. Spray into air or directly onto the source of the odor.

EXTRACTION: Dilute 1-2 ounces of **Mango** per gallon of water. Pour solution into extractor. Extract.

MOPPING OR CLEANING: Add one ounce of **Mango** per gallon of cleaner/disinfectant solution. Severe malodors may require more.

TECHNICAL DATA

Color.....	Yellowish
Scent.....	Mango
Foaming	Low
Solubility in Water	Complete
Density (lb/gal)	8.38
Flash Point	None
pH	7.0-8.0

FEATURES & BENEFITS
